

# Curriculum Vitae

## Personal Information

---

Name: Gábor Forgács  
Telephone: +36-70-949-949-8  
Email: [forgacsg@gmail.com](mailto:forgacsg@gmail.com)  
 [forgacsg.github.io](https://github.com/forgacsg)

## Summary

---

I am a problem solver with excellent speaking and writing skills. I am able to work on my own initiative as well as part of a team to achieve the best results possible. Through my teaching experience I had the opportunity to engage with several IT teams in organizations of different sizes as well as explore a wide variety of topics in the life of business. During my academic career I felt the desire to pick up technical skills to support my research (mining natural language text for argumentative structures), which led to an increasing interest in the field of data science. I also have had an interest in web development for quite some time and I completed an online bootcamp during the summer of 2020.

## Relevant Skills

---

- Python: NumPy, Pandas, Matplotlib, Scikit-Learn, Flask, Plotly, Dash
- R: dplyr, ggplot2, tidyverse, R Shiny
- Javascript: MERN stack, D3.js
- SQL: T-SQL, MySQL, PostgreSQL, BQ
- NoSQL: MongoDB
- Docker
- Git
- Dashboarding tools: Power BI | Tableau | Qlik
- GIS: Leaflet, QGIS, Spatial Databases (PostGIS)
- Advanced MS Excel
- MS Office (Word, Powerpoint, Visio)

## Work Experience

---

2022 – **Data Scientist**  
British Telecom ROC.

2019 – 2022 **Senior Data Analyst**  
British Telecom ROC.

- Analysis of ticket data from various service desk systems
- Data modelling and predictions with Python using ScikitLearn & other packages
- Building API's with Flask
- Dashboard development in Qlik and Python (Dash)
- Deployment with Docker and GitLab CI

2017 – 2019: **IT Business Analyst**  
Cushman & Wakefield

- ETL of client data in Python and SQL Server
- Developing dashboards and reports in PowerBI and Tableau

- Historical Payment Reconciliation for key clients based on generated cash-flow
